Civil Service Month observance highlights dedication and hard work of government employees

As the nation observes Civil Service Month in September, it is well to take stock of the country's human resources in the public sector. The importance placed on the people who serve in both the national and local government offices is indicated by the fact that the Civil Service Commission (CSC) is one of three constitutional commissions — aside from the Commission on Audit and the Commission on Elections — that operate independently from the three main branches of government: executive, legislative and judiciary.

In the 1987 Constitution, Article IX emphasizes that the Constitutional Commissions enjoy fiscal autonomy and are empowered to "promulgate their own rules concerning pleadings and practice before it or before any of its offices."

Focusing on the CSC, the Constitution provides further — "Section 3. The Civil Service Commission, as the central personnel agency of the Government, shall establish a career service and adopt measures to promote morale, efficiency, integrity, responsiveness, progressiveness, and courtesy in the civil service. It shall strengthen the merit and rewards system, integrate all human resources development programs for all levels and ranks, and institutionalize a management climate conducive to public accountability."

Development of a highly competent career service is crucial to the competent discharge of government responsibilities and the quality of service that government offices and agencies provide to the general public.

As of June 30, 2022, the CSC reported that there were 1,820,457 career and non-career employees in the Philippine bureaucracy. About 90 percent are in the career service, which means that they have passed the civil service eligibility examinations that qualify them for promotion to higher responsibilities. Ninety eight percent are employed in the executive branch. In turn, these are distributed to national government agencies, 68 percent;

local government units, 24 percent; and the remaining eight percent are employed in government owned and controlled corporations, state universities and colleges, and local water districts.

Another way of emphasizing the profile of our civil service is this: there were 836,193 teachers in 2019; about 90 percent teach in public schools; more than 220,000 are police officers and enlisted personnel in the Philippine National Police. All told, more than 60 percent of government employees are either teachers or police officers. About 21 percent are employed in the National Capital Region; the rest are distributed in 16 other regions.

"In 2021, CSC introduced a 10-year overarching theme, Transforming Public Service in the Next

Decade: Honing Agile and Future-Ready Servant-Heroes. The theme reflects the collective experience of the government workforce in the new normal, and in pushing for digital transformation and innovations to uphold public service excellence and continuity.

"This year, the thematic focus is on resilience, which is part of building smart organizations and a future-ready civil service. Resilience has been shown by the civil service during the pandemic crisis in its readiness to accept challenges and ability to give continued assistance to the public."

Indeed, the times call for Philippine civil servants to level up and intensify their level of competence and commitment to serve the citizenry and their communities.

Bawas Stress Tips: Mga Mabisang Paraan

May payo ang mga psychologists at psychiatrist para mabawasan ang iyong stress. Mabisa at medyo kakaiba ito dahil galing mismo sa mga eksperto.

1. Isulat ang iyong mga saloobin - Hindi mo kailangang sumulat ng mahaba. Kahit 5-10 minuto sa isang araw upang isulat ang iyong mga saloobin, damdamin at mga ideya. Gawin ito sa isang pribadong lugar. Malaking tulong ito mabawasan ang iyong stress at malinawan ang isipan.

2. Kapag sobrang stress at naluluha ka, hanapan ito ng positibong paraan - Ang sobrang stress ay hindi kailangang maging negatibo maaari itong maging isang positibong hamon.

3. Magplano ng paglalakad sa bawat araw at gawin ito - Ang regular na ehersisyo ay mahalaga para sa isip. Ang dahan-dahang paglalakad ay maaaring makapawi sa stress at maging maayos ang iyong inisip.

4. Labanan ang negatibong saloobin. Palitan ng mga positibong pananaw - Ang mga negatibong saloobin ay bahagi lamang ng buhay. Sa halip na balewala ang mga salitang iyon, subukan itong labanan o hanapan ito ng positibong pahayag.

5. Gumawa ng listahan ng mga taong malalapit sayo - Ito ang mga taong kilala mo na maaari mong laging tawagan, i-text, o i-email kapag kailangan mong makaramdam ng koneksyon.

6. Kapag natigil ka sa isang negatibong pag-iisip, isulat ang 2 magagandang bagay - Isipin ang mga positibong bagay sa iyong buhay sa sandaling ito. Puwede ang isang bagay na nagdulot sa iyo ng kagalakan, isang bagay na ipinagmamalaki mo at isang taong nagmamahal sa iyo. Makatutulong ito sa pag-alis ng iyong pagkadismaya.

7. Gawin ang nagpapasaya sa iyo - Ang bawat tao'y may ilang mga bagay na nagpapasaya sa kanya. Minsan nakukuha ito sa pagligo, paggawa ng hobbies o panonood ng video sa Youtube.

DOKTOR NG MASA

ni Dr. Willie Ong

8. Kapag kinabhan, tanungin ang iyong sarili "at pagkatapos ay ano?" Halimbawa, kung ikaw ay nag-aalala na mawawalan ka ng trabaho, tanungin ang sarili kung ano ang mangyayari kung ito ay nangyari. Maaaring nakakatakot sa simula (kulang sa pera, mawala ang apartment) ngunit pagkatapos ay isipin ang susunod na mangyayari. Siguro gusto mong hanapin ang isang bagong trabaho, maghanap ng mas murang apartment, at kumuha ng pautang. Sa ganitong paraan, nababawasan ang takot mo. At maisip mon a maliit lang naman ang tsansa na mangyari ito.

rights that include patents, trademarks, copyrights, system designs and other rights related to IP.

The MOA signing was held at Midas Hotel, Pasay City and a short program was presided by Dept. of Science and Technology (DOST) Undersecretary Sancho Maborang.

ITech would also market documents that may include all information on the IP such as technology license agreements "affixed on any tangible medium of expression for or format, including any and all copies." and for technical information, the marketing will include all know-how and related technical knowledge relative to the IP.

Maborang noted that there is a low adoption and utilization of technologies being generated. It was for this rea-

son that he wants the "generator" connected to the "adopter" through ITechConnectPH.

With this, Maborang hopes that there will be high adoption rate of technology by DOST. "Dito ay matitiyak natin na tataas ang adoption rate sa DOST dahil hindi lamang limitado 'yong pakikipag-ugnayan sa mga inventor, kundi sa mga researchers, scientists, engineers na mayroong technology na puwedeng ibenta, puwedeng i-commercialize or for public good," the DOST official explained.

Suki Trading Corp. is also into sale of agri-industrial machinery and construction equipment.

Ocon said he hopes that with the signed agreement, inventors will have a platform to share technologies and there will be higher adoption.

The two corporations further agreed that Suki... will pay P1-million pesos to ITech as a signing fee. The former will also grant access and/or turn over to ITech all technology, intellectual property rights, documents and technical information over in or relative to IP.

It was further agreed

that for each closed deal, ITech will receive 20 percent from any amount within five days from receipt of any closed transaction.

ITechConnectPH and Suki Trading Corporation are both members of the DOST Small Enterprise Technology Upgrading Program (DOST-SETUP).

Cavite Floorball Club, anyone?

Sticks. Sneakers. Helmet. Jersey. Protective gear.

Hockey without ice? Or Hockey without the roller skates and ice? Getting the idea now?

What is floorball? Floorball is a fast-paced, fun sport that has developed incredibly quickly. Since the first floorball federation was established in Sweden, the game has gained popularity and is now played in over 80 nations, of which the International Floorball Federation

currently counts about 75 as members (IFF). Although Northern Europe, Switzerland, and the Czech Republic have the highest concentration of players, the sport has already taken off globally. The fascinating sport of floorball is played in Europe, Asia, Australia, North America, South Africa, and Africa, and it is continually gaining popularity in new nations.

Floorball is a sport that is simple to learn. There is no need for a large investment in equipment, and you can begin playing with just your shoes and a stick. No prior experience is also required; players progress quickly, and almost anyone can learn the fundamentals of the sport while having fun. The game becomes more difficult as the pace of the game increases, necessitating more advanced ball handling, shooting, and passing skills. Floorball becomes even more difficult when tactical elements are added. It takes years of practice to master the sport and become an elite level floorball player.

It's easy to pick up the sport of floorball quickly. You can start playing with just your shoes and a stick, so there's no need to make a significant investment in equipment. Additionally, there is no prerequisite knowledge needed because players advance swiftly and practically anyone may enjoy learning the sport's principles. With increased speed comes greater difficulty in the game, requiring more skilled ball handling, shooting, and passing techniques. The addition of tactical

components makes floorball much more challenging. To master the game and reach the highest levels of competition in floorball, it takes years of practice.

Floorball is played in a match between two teams of five field players and one goalkeeper on the same rink at the same time. The goal of the game is to score more goals than the opposing team while adhering to the rules. Forwards, defenders, and goalkeepers are the basic roles of the players.

Want to try playing Floorball?

Introducing Cavite Floorball Club (CFC).

Cavite Floorball Club is a regular member of Philippine Floorball Association (PFA) – the national organization of the sport of Floorball in the Philippines.

CFC was established Imus City, particularly in Southern City 1 Subdivision (SC-1) in 2018 by Coach Ferdinand "FAB" Buenaventura. This was his response to the need for sports alternative to the youth of SC1-Tanzang Luma IV. He noticed that almost every child in the community would play basketball but once teams are formed, those are cut out of the line ups have to wait for weeks on end before they get to play with their friends again. To put it simply, he started this endeavor to open more opportunities for Cavitenos in the world of emerging sports like Floorball.

And yes, CFC has had several tournament finishes under their belt, at the United South Floorball League 2018 and Floorbalista Cup 2019.

So why don't you try and play floorball?

Check their Facebook Page at @CaviteFloorballClub. You can also send them inquiries for party events for floorball at 09958663912 cavitefloorballclub@gmail.com.
