Carmona, now a component city

President Ferdinand Marcos, Jr. signed into law Republic Act No. 11938 converting the Municipality of Carmona into a component city of the Province of Cavite on Friday, February 24, 2023.

According to Cavite 5th District Representative Attorney Roy Loyola, it has been twelve (12) long years since they started the journey to cityhood. He originally authored Carmona's proposed city charter.

On January 30, 2023, the Senate approved House Bill No. 3968 or the Charter of the City of Carmona with 19 affirmative votes. Senator Joseph Victor "JV" Ejercito was the bill's principal sponsor in the Senate and chair of the Upper Chamber's local government panel.

"Carmona has all the characteristics of a city but does not enjoy such privilege despite being one of the most prosperous municipalities in the entire country. This bill embodies the hard work, dreams, and aspirations of the people of Carmona," Ejercito said in support of the bill.

The cityhood will provide more opportunities for its people and more investments for its local government, Sen. JV Ejercito added.

The town of Carmona is the first municipality to be converted into a city under Republic Act No. 11683, which amended the Local Government Code of 1991 and made it easier for towns to apply for cityhood. (RBF/PIA-Cavite with reports from the Municipality of Carmona)

DOST Sec. Solidum upholds collaborative and people-centered science, technology and innovation

DOST Sec. Renato U. Solidum expressed gratitude to Senator Francis Tolentino for inviting him to the launching of the "Townhall Meeting on Public Policy" organized by KLABARZON, a non-profit humanitarian organization, held at Kawit, Cavite today, February 23, 2023, as this provides a mechanism for national and local leaders to convene and collaborate.

In photo: Sen. Francis Tolentino, Sec. Solidum, DOST-Cavite Provincial Director Gilda de-Jesus and DOST4A Regional Director Emelyn Bagsit (Photo courtesy of DOST-Office of the Secretary)

He said that this is vital for promoting regional development and the socio-economic development of the country.

"Itong pagpupulong ay very timely dito sa DOST at sa topic na inassign sa akin kasi po ay mag-lo-launch kami ng 'Smart and Sustainable Communities Program,' hopefully, sa susunod na buwan at kayo po ang unang makakarinig nito sa isang probinsiya," the Secretary gladly introduced.

Aside from refocusing the programs, projects

and activities of DOST to support the socio-economic agenda of the President, he said that the agency is strengthening the collaborations, complementation and synergy within the DOST system, as well as in partnership with other national government agencies. This will help them concentrate their human and financial resources and efforts, and realize the full potential and benefits of science, technology and innovation (STI).

The Secretary also

emphasized the advocacy of DOST which is, "Science for the People" and "One DOST for you!"

"Ibig sabihin, kami ay tutulong sabay-sabay para kayo ay matulungan sa inyong mga posibleng problema o di kaya ay plano," he assured.

The "Smart and Sustainable Communities" program that the Secretary introduced will be the consolidation of all the STI initiatives of the department with all the national agencies down to the local government. This means DOST is com-

mitted to provide their identified needs, given the premise of collaboration and agreement.

Through this program, he said the DOST will be offering smarter solutions, approaches and strategies to the key development areas of the country, including agriculture and food security, energy, transportation, health, education and human capital building, among several others.

Sec. Solidum asserted that science, technology and innovation must be utilized for wealth creation, wealth protection, sustainability and promotion of human well-being.

Firstly, wealth creation for an improved quality of life and economic condition of the Filipino people. Secondly, there is a need to protect the wealth we create through developing STI for disaster resilience as an archaeological coun-

try that is prone to natural hazards and global warming. Thirdly, sustainability to ensure the continuity of STI initiatives for a better future. And lastly, to maximize the use of STI for enabling a holistic human well-being - physically and mentally healthy, has access to quality education and modern transport systems, lower energy cost, and many alike.

The DOST Secretary highlighted that there is a paradigm shift happening in DOST in terms of doing research and development. From being a peer-centric and publication-driven endeavor to becoming a more society-centric, market-driven, and impact-based undertaking.

He ensured that DOST will work closer, engage, and encourage more partnerships among government departments,

academe, local government and private institutions to collaborate in developing sustainable and more responsive solutions to bridge the science, technology and innovation gaps in the country.

The event was attended by Mayors, Vice Mayors, and officials of PNP and national Government Agency of Calabarzon region.

Phase 2

from page 1

A signing ceremony was held between the two parties with CIC represented by its President and General Manager, Mr. Raul L. Ignacio, and CRBC Philippine branch General Manager Mr. Ren Xiaopeng.

"The CAVITEX C5 Link is a vital segment of the Manila-Cavite Toll Expressway Project (MCTEP), so far, we managed to open 3.8-kilometer (Segment 3A1 and 3A2) to the motoring public, serving more than 16,000 vehicles daily. Still, we have a long way to go.

This is something we cannot do alone, hence our search for a contractor that would be up for the task-delivering

world-class quality infrastructure for our motorists within our timeline.

"We are glad that our new partner China Road and Bridge Corporation (CRBC) took on the challenge," said Mr. Raul L. Ignacio, President and General Manager of Cavite Infrastructure Corporation.

CRBC is a pioneer in the international engineering contracting market in China with a history of nearly 60 years. The company focuses on global civil engineering and construction projects such as roads, bridges, ports, tunnels, railways, municipal works, dredging, and airports. CRBC has been in the Philippines for

nearly 30 years and has done numerous projects in different regions and these projects have stimulated the growth of the region with its quality and on-time construction. The Central Luzon Link Expressway (CLLEX) Phase 1 Package 2, the Estrella- Pantaleon and Binondo-Intramuros Bridge are among them.

CIC and CRBC target to start phase 2 of the

construction for the CAVITEX C5 Link Segment 2 this Q1 of 2023 and aims to open it to the public before the end of the year.

Meanwhile, the construction of Segment 3-B from Sucat to E. Rodriguez (RSG Subdivision), according to the latest project timeline of CIC, is set to begin in the third quarter of the year. CAVITEX C5 Link

project is a 7.7-kilometer 2x3 lane expressway that will connect CAVITEX R1 to C5 Road in Taguig.

It is expected to serve 40,000 vehicles per day; reducing travel time to Makati and Taguig from Parañaque City, Las Pinas City, and Cavite Province by forty-five (45) minutes; and decongesting traffic in Metro Manila.

Aside from the CAVITEX and its C5 Link Segment, the MPTC's tollways portfolio includes the concessions for the Cavite-Laguna Expressway (CALAX), North Luzon Expressway (NLEX), the Subic-Clark Tarlac Expressway (SCTEX), the NLEX Connector Road, and the Cebu-Cordova Link Expressway (CCLEX) in Cebu.

Editorial

Onward to a million homes annually?

The President seemed serious as he reiterated his administration's goal to build at least one million housing units annually during his term of office. He made this statement during a groundbreaking event of the Department of Human Settlements and Urban Development (DHSUD) in Cebu last Feb. 27, 2023.

It was not lost on the President that the housing crisis — a burden of every administration — starts with a 6.5 million backlog in housing units. The DHSUD, led by Secretary Jerry Acuzar, is aware of the task at hand and feels the pressure; but the President is confident in the skills of Acuzar, who was the chair of a major housing developer and builder before being appointed to the post.

The one-million housing goal is a good start in facing this gargantuan crisis. Housing entails the use of so many resources — land, raw materials, utility connections, etc. The DHSUD now has to "balance" its budget, maximizing it to provide the most number of houses, but not to the point of compromising the standards and safety of each unit. After all, what's the use of a house that would be dilapidated or in a state of disrepair in a few years' time?

Even though a great deal of resources would be needed and utilized, the benefits of housing are exponential not only to the individual or a family, but more so for the community, and eventually, the country. According to Habitat for Humanity, housing is important because "it affects everything in a person's life." "Without a house, things that many people take for granted, like raising a family, securing a job, or making a meal, become almost impossible."

"Homelessness and poverty lead to increased rates of family and domestic violence, depression, health issues, food insecurity, child abuse and neglect. All the issues associated with poverty are inextricably linked to housing," the group explained.

Permanent housing, it said, can "relieve economic stress and reduce rates of domestic violence and alcohol dependence. For children, a house means avoiding lifelong poverty. Access to housing means a better chance

to obtain necessities like food, clothing, medicine, and sanitation. The stability of a house gives those in poverty the opportunity to build a decent life for themselves."

In short, "housing is not just a roof over the head, but a solid foundation for the future."

To give credit to the President, he has called on multiple times the need to urgently address the housing crisis. For him, to solve poverty and a lot of social ills, one of its root causes must be tackled first, which is the lack of housing. With the lack of decent housing, this pushes the number of informal settlements — not the most ideal of places to thrive in, especially for the youth, growing families, or the elderly.

In that Cebu event, the President noted that the houses that will be built for the poor will also be disaster-resilient, affordable, and near livelihood spots, schools, health centers, and other establishments. He said the government will also build other infrastructure in the area in order to sustain the community.

The one-million goal is commendable and deserves our support as taxpayers. Naysayers, however, may say that this is a lofty ambition, or maybe an illusion considering the difficulty of just building a few thousand housing units. Now, we have to wait and see if the DHSUD delivers on its promise, and makes this goal a reality and not a fantasy.

Alamin Ang Palatandaan ng Skin Cancer

Ano ang palatandaan ng masamang nunal? Ito ay puwede maging skin cancer (malignant melanoma) na madaling makamatay. Simple lang po ang sagot. Sundin ang ating ABCD:

A – Anyo (asymmetry): Ang nunal o birthmark sa balat ay dapat pareho ang anyo. Hindi siya dapat pagzigzag o pa-uka-uka ang paligid.

B – Border: Dapat makinis at malinaw ang paligid ng nunal o birthmark. Kapag may pagka-blurred ang gilid ng nunal, baka masama na ito at magpatingin na agad sa doktor.

C – Color o kulay: Ang kulay ng nunal o birthmark ay dapat iisa lamang. Itim kung itim, brown kung brown. Kapag naghahalo ang kulay ng isang nunal, may itim, red at brown pa, senyales ito ng masamang nunal. Magpacheck up na.

D – Diameter o laki ng nunal: Ang nunal o kahit anong marka sa balat ay hindi dapat lalampas sa 6 mm sa haba o diameter. Kasing laki ito ng isang pencil eraser. Kapag mas malaki sa isang pencil eraser ang inyong nunal, magandang ipasuri ito sa doktor para makasigurado. Dapat ay hindi rin lumalaki ang inyong nunal.

Paano gagawin itong ABCD sa pag-check ng nunal? Humarap sa salamin at tingnan ang balat. Tingnan din pati ang likod. Gumamit ng salamin para makita ang lahat ng parte ng katawan. Halimbawa, ang skin cancer sa lalaki ay madalas nakatago sa likod. Gawin ang pagsusuri bawat buwan, tulad din ng pasusuri ng suso sa babae.

Paano iiwas sa skin cancer o melanoma?
1. Umiwas sa sobrang pag-beach at pagbilad sa araw. Ayon sa pagsusuri, ang mga taong mahilig mag-sunbathing noong kanilang kabataan ay mas tumataas ang tsansang magkaroon ng skin cancer. Bukod sa skin cancer, kukulubot pa ang mukha.

2. Maglagay ng sunblock na may proteksyon sa Ultraviolet A at B (UVA at UVB). Ang proteksyon ng sunblock ay umaabot lamang sa 4 na oras. Kaya kailangan mong mag-lagay muli ng sunblock kapag

DOKTOR NG MASA

ni Dr. Willie Ong

madalas kang nasa araw.

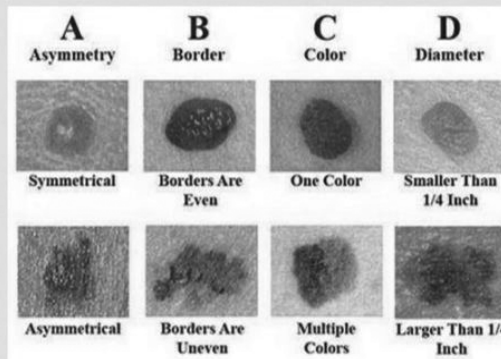

3. Umiwas sa matinding sikat ng araw mula 10 ng umaga hanggang 4 ng hapon.

4. Mag-ingat kapag nasa tabing dagat, beach at buhangin dahil ang mga bagay na ito ay nag-re-reflect ng araw pabalik sa ating mukha at katawan.

5. Mag-sombbrero, mag-long sleeves at magsuot ng sunglasses.

Kaya suriin na ang iyong balat. Tandaan ang ABCD ng skin cancer para maging ligtas sa sakit.

DOST Upskills

from page 1

The speakers discussed the precise calibration procedures for certain specific industrial equipment. Hands-on exercises were given for practical evaluation. Pre-test and post-test were also conducted to assess the learning outcome from the training.

The activity was conducted to upskill the employees of FABC on how to do periodic maintenance and in-house calibration of their equipment. It was also given in preparation for their upcoming ISO accreditation this year.

FABC is a large-scale banana plantation that exports Cavendish bananas internationally, particularly in Japan. It is among the primary sources of local employment in the community, with 100 employees or more. Aside from the economic contribution of the firm, it also aims to continuously improve the technical know-how of its employees.

"We're very satisfied with the training. I learned how to calibrate the equipment needed in banana production," said by one of the participants

during the training evaluation.

After this training, the firm is expected to increase its productivity and efficiency.

The Department of Science and Technology 10 through the Regional Standards and Testing Laboratory is open to conduct metrology-related trainings in various parts of the region. Interested companies may express their intent through a letter addressed to the officer-in-charge, Engr. Romela N. Ratilla, through the RSTL Manager, through the RSTL Head, Engr. Frumencio B. Quiblat, Jr. The LOIs may be sent to ord@region10.dost.gov.ph. The RSTL also offers calibration services, chemical and microbiological testing for water, food, and swab samples, as well as shelf-life evaluation studies.

Aside from the services and trainings from RSTL, DOST also provides consultancy services and technology upgrading to interested firms through the Small Enterprise Technology Upgrading Program (SETUP). **(Delwin Balanay Jr/DOST10)**

Chairman of the Senior Citizen Affairs Committee, Councilor Ivan Amutan, and author of the ordinance personally signed the ordinance with the support of former councilor Ferdie Amutan, OSCA Head Carlito Talay, and PDAO OIC Head Joel Bonilla.

The ordinance states that the financial assistance will be delivered personally

to each beneficiary's house for their safety and convenience.

Mayor Kevin Anarna stated that "If during the election we could go from house to house for votes, we should go from house to house to provide services to our Senior Citizens and PWDs."

He added further that the seniors and elderlies have served their fami-

lies, and the locality for a long time and it is appropriate that they are given convenient access to whatever benefit they are eligible to receive from the government.

Did You Know?

YOU'RE ALWAYS SEVEN YEARS BEHIND IN ETHIOPIA

Here's one of the most mindboggling facts about the world — when we welcomed 2020, Ethiopia was only four months into 2012 ??

Just like the Gregorian calendar (the one most of us are on), the Ethiopian calendar marks Christ's birth as the starting point. However, following alternate calculations of the annunciation of Christ, the Ethiopian calendar is seven to eight years behind.

Fortunately, travellers aren't affected by the difference while they're there. Modern-day Ethiopia understands the Gregorian calendar and uses both calendars interchangeably. But if you're keeping receipts for reimbursements, the date printed might make it seem like your trip was years ago. Not to worry though, all you have to do is convert your dates!

The most interesting differences are the yearly holidays — unlike the rest of the world, Ethiopia celebrates New Years on September 11th and Christmas on January 7th (in Gregorian calendar).

March Madness in Cavite 2023

Temperature check! It's the month of March and sports events in the province is heating up. We are only on the the first week of what could possibly be the hottest month of the year and already, our calendar is almost full of sports tournaments, clinics and workshops.

Let me begin with the Vice Governor Athena Bryana D. Tolentino National Age Group Chess Championships for Boys and Girls. The age groups include Under 18, 16, 14 and 12. Happening from March 3 to 5 in the City of Tagaytay.

And we have the football tournaments lined up, all happening in the Province of Cavite.

Imus Cup is slated on March 11 with several age groups, Under 7, 9, 11 and 13. For the older ones, there's Under 15 and 17. Venue is at the City of Imus Stadium. And on March 25 and 26, the 1st Mayor Denver Chua Football Tournament is happening in Cavite City. The collaboration of the mayor's office and United Futboleros de Cavite City will run several age groups on the first day: Under 7, 9, 11, 13, 15 and 17. For Day two, there will be Under 19, Women's Open and Men's Open.

As if the sports madness is not enough, several basketball tournaments will open this month. The Coach Dennis Pagligaran posted the Carsigma Ballers League Season 1. It features 18 Under, 16 and 14. It is open to school teams and club teams. The OUT of BOUNDS & MTB by Coach Fred Bael will have the Inter-High Season 4. Events include basketball boys & girls, volleyball girls.

And here is the update on the two tournaments from Coach Alvin Guadines:

11th Lion's Cup

School	Wins	Lose
Christian Values School	4	0
JOSIAH	3	2
Academy of St. John	2	0
Great Mercy Academy	2	3
La Trinidad Academy	1	3
The Thomas Aquianas	0	0

Basketball Inter-Grassroots League-Cavite

Club	Wins	Lose
Matingkad Basketball	3	0
Imus Arsenals	1	2
Coach J Hoops Academy	1	2

Lion's Cup championship is on March 11, 2023. Venue: Justineville Ph4 Basketball Court, Panapaan, Bacoor City.

Remember the National Basketball Training Center? It's the biggest nationwide high school developmental basketball league in the Philippines. The brainchild of Coaches Eric Altamirano and Alex Compton, it has helped in the grassroots development of the players and coaches as well. Quietly, slowly and carefully, the NBTC has resumed it's program after the lockdown and started to run the city and regional qualifiers. The Philippine Christian Unviersity-Dasmarinas will represent Cavite in the National Finals this 2023.

And expect to have more sports tournaments in every baranggay this summer. Serving the sports needs of the province. March madness it is!
